

Articled Clerks

2022

Pragya Chowdhury
University of New Brunswick

(1) If you were not studying to become a lawyer, what career would you have chosen?

If I wasn't in law, I would probably have stayed in the sciences to do the masters and medical school route.

(2) Is there a practice area or industry in which you are particularly interested?

While I'm broadly interested in litigation, there are a few specific areas of law that are of particular interest. These include alternate dispute resolution, immigration, employment, and insurance litigation.

(3) What is a random skill that you would like to learn?

I'd love to learn Portuguese so I could watch Love is Blind Brazil (the finale doesn't have subtitles).

(4) What experience, job or internship have you learned the most from or found most rewarding?

I worked Pro-Bono this past year with Sexual Violence New Brunswick (SVNB), to gather resources and aid in developing trauma informed lawyering training for lawyers in civil litigation. This was the most rewarding experience, and one that I learned a lot from as well.

Jacob Ezeard
Dalhousie University

(1) If you were not studying to become a lawyer, what career would you have chosen?

Astronaut! This is still the dream. Law is just a fallback.

(2) Is there a practice area or industry in which you are particularly interested?

I'm mostly interested in a mix of solicitor-based topics. Some of my favourite courses at law school included corporate law, tax, estate planning, and intellectual property.

(3) What is a random skill that you would like to learn?

How to drive stick shift. I've never tried, but it seems like a useful thing to know.

(4) What experience, job or internship have you learned the most from or found most rewarding?

The UPEI Business Case Competition Team provided an opportunity to explore new places, meet new people, and compete against students from top business schools around the globe. The professors and coaches helped me develop basic advocacy skills such as persuasive writing, public speaking, and quick thinking. The program sparked my interest in corporate law.
